Navicure Named on the *Healthcare Informatics'* HCI 100 for Sixth Consecutive Year

Leading healthcare billing and payment solutions provider moves up six spots on annual list of largest public and private healthcare IT companies

Atlanta, May 22, 2014—[Navicure](#), a leading healthcare billing and payment solutions provider for hospitals, physician practices and billing companies, today announced its ranking on the 2014 *Healthcare Informatics'* HCI 100 list. The company's continued growth helped it rank 79th on the list this year, six spots higher than it ranked last year.

For more than 20 years, *Healthcare Informatics* has ranked the 100 vendors with the highest revenues derived from healthcare IT products and services earned in the U.S. based on revenue information from the previous year. During fiscal year 2013, Navicure earned \$63.1 million in revenues which is a 24 percent increase from their 2012 revenue. Navicure's inclusion on the HCI 100 list comes on the heels of the company's [announcement](#) of adding 300 new clients to their customer base in the first quarter of 2014.

"We are honored to be included on the HCI 100 list once again, especially as our rankings continue to improve in an increasingly competitive market," said Jim Denny, founder, president and CEO of Navicure. "Since its inception, Navicure has been dedicated to delivering the tools and services healthcare providers need to improve their financial health and operational performance. We will continue providing technology solutions and educational resources for healthcare providers from small and large organizations as they look for ways to effectively manage their revenue cycle."
