**Navicure Partners with Colorado Medical Society
to Enhance Claims Management for Colorado Physicians**

Partnership allows member physicians to leverage Navicure's Web-based clearinghouse/self-administered claims management services at preferred pricing

Atlanta and Denver, February 11, 2008—Navicure, a leading provider of automated, Web-based claims management solutions for physician practices, and the Colorado Medical Society (CMS), the state's largest physician membership organization, today announced an exclusive partnership aimed at offering Navicure's self-administered clearinghouse/claims management services to Colorado physicians. Per the terms of the agreement, Navicure will offer these services to member physicians at preferred pricing.

CMS made the decision to partner with Navicure because the firm had a track record of providing excellent service to CMS' members. CMS wanted to expand its member benefit program offerings to include a leading Web-based self-administered claims management solution that could improve the profitability and efficiency of its members' practices. Navicure's 98 percent client renewal rate, 3-Ring™ client service policy – which ensures a Navicure staff member will answer the phone by the third ring - and its Web-based software were key factors that attracted CMS to the company.

"Our mission is to be an advocate for our members. To this end, CMS prides itself on bringing leading clinical, operational, and financial solutions to our members that allow them, and their patients, to thrive," said Dean Holzkamp, CMS' Director of Member Benefits. "We are eager to see the positive impact this partnership with Navicure will have on our physicians and their staffs."

"What makes Navicure unique is the combined strength of our product and unmatched client service we provide our clients," said Jim Denny, founder, president and CEO of Navicure. "That is what has enabled Navicure to maintain such high client satisfaction and renewal rates. We're excited about our partnership with CMS and believe Colorado physicians will soon realize what they were missing with previous clearinghouses."

About the Colorado Medical Society

Founded in 1871, the Colorado Medical Society is an association of physicians that promotes the science and art of medicine, the betterment of public health, and the welfare of the medical profession and the patients its member physicians serve.

About Navicure

Navicure is a leading provider of automated, Web-based claims management solutions that help physician practices improve operational efficiency and profitability. Serving thousands of physicians in practices nationwide, Navicure's solutions automate revenue cycle processes, including eligibility verification, primary and secondary claims management, electronic remittance posting, advanced reporting and analysis, and patient statement processing. Based in Duluth, GA, Navicure was ranked #1 among the *Deloitte Fast 50* in 2007, which ranks the fastest growing technology, media, and biotechnology companies in the state over the previous five years. Navicure ranked 40th nationally among the 2007 *Deloitte Fast 500*. For more information, please visit www.navicure.com.
